

[illegible][illegible][illegible][illegible]

This is a highly detailed administrative and geographical map of Mexico City, specifically focusing on the Distrito Federal and its immediate surroundings. The map displays the city's complex urban layout, including numerous neighborhoods, streets, and landmarks. Key features include:

- Geographical Features:** Large water bodies like Lake Texcoco and Lake Xochimilco are prominent. The map also shows various rivers and smaller lakes.
- Administrative Divisions:** The map delineates different municipal delegations and boroughs within the Distrito Federal, as well as adjacent states like Tlaxcala and Puebla.
- Infrastructure:** Major transportation routes, including highways and public transit lines, are clearly marked. The airport area is also indicated.
- Map Elements:** A coordinate grid is overlaid on the map. In the top left corner, there is a small inset box containing a table of distances between specific points of interest. The title "DISTRITO FEDERAL" is printed vertically along the left edge.

The map provides a comprehensive overview of the capital city's spatial organization and its relationship with the surrounding regions.
